[linkedin.com/in/meenakshi-subudhi](https://www.linkedin.com/in/meenakshi-subudhi) | Austrian RWR-Plus Visa • EU-based • Full work authorization

Senior Software Engineer with 10+ years at enterprise technology companies (Broadcom, Tata Consultancy Services), specialising in Java backend systems, REST API design, code review, and debugging across large distributed codebases. Prototyped AI/LLM-assisted tooling with Google Gemini and NotebookLM; uses Claude Code and Cursor in daily engineering work. Strong written communicator with a track record of technical documentation, cross-team knowledge sharing, and mentoring engineers.

TECHNICAL SKILLS

Languages & Frameworks: Java 8/11/17, Java EE | Spring Boot, Hibernate/JPA, OSGi, JSF, Eclipse RCP

System Design & APIs: REST API design (resource modeling, versioning, error contracts, auth), service integration, message-queue patterns (AWS SQS)

Code Quality & Review: PR/code review across distributed Java codebases, JUnit 4/5, Mockito, Robot Framework, static analysis (SonarLint, Black Duck)

AI & LLM: Claude Code (Anthropic), Google Gemini, NotebookLM, Cursor | IBM Generative AI: Prompt Engineering (2025)

Tooling & Databases: Docker, Jenkins, Bazel, Maven | PostgreSQL, MySQL, Oracle, MS SQL

PROFESSIONAL EXPERIENCE

Senior Software Engineer (R&D Engineer Software 3)

Jul 2022 – Present

Broadcom Inc.

Vienna, Austria

Automatic Automation — Enterprise Workload Automation Platform

- Conducted regular PR and code reviews across own and adjacent teams — evaluating correctness, design, maintainability, and quality standards across a large, distributed Java codebase.
- Designed and shipped a context-based report-search REST endpoint (hackathon → production) with a measurable efficiency gain — end-to-end ownership of API contract, algorithm, and integration.
- Led the Java API test migration — systematic evaluation and replacement of legacy tests; authored technical documentation and shared learnings across teams.
- Prototyped an AI-assisted on-call support tool using Google Gemini and NotebookLM to surface relevant runbook context; uses Claude Code and Cursor in daily engineering work.
- **Tech:** Java 17, OSGi, REST | JUnit, Robot Framework | Jenkins, Bazel | PostgreSQL, Oracle

Software Developer

Sep 2021 – Jul 2022

Dodax EU GmbH

Vienna, Austria

E-commerce platform — order processing, vendor management, logistics

- Built and maintained Spring Boot REST services on the e-commerce platform; reached 80% test coverage; optimised performance across a multi-million-product catalogue.
- **Tech:** Java 8/11, Spring Boot, Hibernate/JPA, REST | MySQL, PostgreSQL | Maven, AWS SQS

Software Developer

Aug 2018 – Aug 2021

Medical University of Vienna

Vienna, Austria

Octavo — Image-based Medical Diagnosis Software

- Resolved 200+ bugs through root cause analysis and systematic refactoring — deep debugging and code comprehension across a complex, unfamiliar Java desktop codebase.
- Improved scan loading performance by 300% through algorithmic analysis and optimisation; grew code coverage from 0% to 50% + within one year.
- **Tech:** Java, Eclipse RCP, SWT, Swing | JUnit 4, Mockito | GitLab, Jira

Software Engineer

Sep 2013 – Aug 2016

Tata Consultancy Services

Bangalore, India

Clients: GE Healthcare PLM • Internal enterprise search platform

- Delivered Java EE features for a GE Healthcare Enovia PLM platform and built an EXALEAD CloudView enterprise search application; received TCS Gems Award.
- **Tech:** Java EE, JavaScript, HTML | EXALEAD CloudView, Enovia

EDUCATION & CERTIFICATIONS

B.Tech — Mechanical Engineering

2009 – 2013

College of Engineering and Technology

Bhubaneswar, India

CGPA: 8.6/10 • Department Fellowship — Top 5 Scorer

Certifications: IBM Generative AI: Prompt Engineering (2025) • Six Sigma Green Belt • Broadcom internal AI training programmes

Languages: English (fluent) • German (A2) • Odia (native) • Hindi (native)
